

# The Chapel Cloister

The Exit from the museum room leads into what was once a monastic Cloister; the Chapel Cloister. The splendid doorway leading into the chapel was carved by a renowned master mason of his time, Edward Kinsman.

The chapel cloister is clothed with memorial slabs commemorating former staff, students and brothers. Its beautiful stone décor enables one to get a sense of what once was, reliving the rich history whilst enjoying your event, be that a reception or dinner.
